### CHAPTER DIRECTOR'S CORNER

The beginning of a new year is upon us. 2010 ended with a Flurry (alright SNOW) and the New year began with SNOW and ICE, leaving us yearning for that warm sun and planning our next great riding adventure. While we wait we have time to prepare for the new riding season. As we prepare we might think of some of our favorite travel locations, during the January gathering, ride suggestion sheets were handed out and a few were returned, I will bring the sheets to the February gathering for those who did not get a chance to fill them out and return them.

As long as we have ride ideas we can set plans for the riding season month by month. This worked out last year to offer some great rides including Cades Cove, Gatlinburg and Helen GA. I would like to thank each of you who entered ride suggestions for 2010 and participated in the adventures.

We also tried a new point based Chapter participation and High Mileage award, thank you for your patience as we worked out the details and thank you for your participation. It was a close race this year and I will divulge the results during the February Gathering of who the winner was for 2010.

It is my hope and desire that we can move forward in 2011 with even greater participation and new ideas for rides, it is also my desire to try and make our activities enjoyable for all who participate.

*As a Chapter* we will need to focus on some fund raisers for this year, our funds are dangerously low. This is not a bad thing, we have donated to Harbor of Hope as our Charity, along with Ride for Kids, and we have had a lot of gatherings and events this past year where the Chapter furnished the refreshments and it is only right to enjoy ourselves. Moving forward in order to fund these events we will need everyone's participation on fund raisers for the new year so that we can continue this trend.

I am excited about the new year and what it may hold in store for us all. I would also welcome any input on how we could make OUR Chapter better from meetings to rides. Please feel free to critique my performance as a Chapter Director as well. The goal we have set is to make this Chapter enjoyable for members and guests alike.

Have Fun riding, stay warm and I look forward to our next gathering.

Until we meet again.

Ride Safe and have fun. Don & Susie Stewart

### FEBRUARY Door Prizes. VALENTINES DAY THEME

Thank you for all who brought Door Prizes to the January Meeting. If each one of us could bring one door prize, it is a good bet that every one in attendance would receive a prize. Thank you once again for your participation.

**RIDER EDUCATION**  
**Chapter Educator – Loretta Kobylski**  
*RIDER ED 'GIMME 5'*

**TOPIC:** End of Season Cycle Maintenance

Whether the riding season in your area lasts only four or five months, or as long as ten months, most of us will let our motorcycles remain unriden for a long enough period of time that it is best to prepare it for a season of rest.

November typically brings weather throughout the northern tier of states that is not very good for motorcycling. Most parts of this great country of ours experience two or more months of weather that is not considered part of the riding season. The air temperature alone gets cold enough to cause hypothermia without adding the wind chill from sitting atop a motorcycle while blasting down the road at legal speeds – even at 45 mph. And many areas will have snow on the ground before the month is out. Some of you may be cold-blooded enough to prolong the season a few extra weeks, but for most, there is a period each year when your motorcycle becomes a lonesome friend sitting quietly in the garage.

Before you park it for a season of inactivity, this is a great time to get your end of season maintenance done. It is recommended that you change the oil and oil filter to remove contaminants – dirt, deposits, acids and moisture – that can lead to corrosion inside the engine. Other fluid levels should be checked for proper level. If the fluids are due for replacement based on miles ridden since the last change (check your manual and service history), this is a good time to do that and any other maintenance tasks that you may have been putting off.

Your mechanic likely is not very busy at this time of year. He (she) would probably appreciate your visit, too! And you know your bike will be better for it. Then when spring comes next year (it is not that far off, after all!), you'll be ready to go without a visit to the mechanic before planning your next big ride. After you get it back from your mechanic, fill the gas tank and add the appropriate amount of fuel stabilizer (such as Stabil) before parking your Wing. Wash and wax the bike and inflate the tires. The battery should be disconnected from the motorcycle (negative terminal first) and trickle charged at least every 30 days, per your Gold Wing Owner's Manual. (Refer to your battery charger manual for more charging details.) Take good care of your Wing, and your Wing will take good care of you!

*Ride Smart & Be Safe!*
